Summary

I am a final-year Computer Science student with a strong passion for software development, cybersecurity, and emerging technologies. Throughout my academic journey, I have gained hands-on experience in programming, system design, and data analysis, complemented by internships and personal projects that have strengthened my problem-solving skills.

I thrive in dynamic environments where I can apply my technical expertise to develop innovative solutions. My coursework and practical experiences have equipped me with proficiency in languages like C/C++, Python, and Java, as well as familiarity with artificial intelligence and cybersecurity best practices. I am eager to leverage my skills in a challenging full-time role, where I can contribute to impactful projects and continue growing as a technology professional.

I am actively seeking opportunities in software engineering, cybersecurity, or related fields where I can apply my knowledge, collaborate with talented teams, and make meaningful contributions to innovative solutions.

Experience
